MIDNIGHT WRECK ON THE SOUTHERN

Bad Smash Up at Belt Junction This Morning.

ENGINEER WALLACE HURT

Switch Engine Is Demolished by the Passenger Train.

PASSENGERS BADLY SHAKEN UP

It Is Not Thought That Any One Is Injured—A Wrecking Train Sent Out to the Scene Early This Morning—How It Occurred.

What may prove a fatal wreck occurred on the Southern railway at the belt junction at midnight.

Train No. 36—the vestibuled for Washington—was going by the junction at the usual rate of speed when it crashed into a switch engine.

The cab of the switch engine was demolished, while the engine of the passenger train was badly wrecked.

ENGINEER SINGLETON WALLACE is thought to be fatally hurt.

Just why the switch engine was upon the regular track could not be determined by those who went out to investigate early this morning.

As quickly as possible after it was learned that the wreck had occurred a relief train was ordered out and left from the yards at 2 o'clock this morning with a full corps of physicians on board.

Passenger coaches were well filled and nearly all were sleeping.

The smash-up came without a moment's warning, save a sudden jerk given by the train when Engineer Wallace reversed his lever.

All passengers were tumbled out, but it is not thought that any one except the engineer is injured.

NEGRO ARRESTED MAKES CONFESSION OF CRIMES.

Has Been Stealing for Ten Years in Different Cities of the South, But Always Escaped With Booty.

Anniston, Ala., March 30.—(Special.)—George Dothard, colored, the burglar who was unmasked by the police yesterday, but who escaped, was arrested today by Officers W. C. Legrand and Frank Turnerville, near Morristown, about fourteen miles west of here.

He made no resistance. Dothard confesses to burglarizing six churches and a number of residences, but claims that he has confined his operations entirely to these and is not responsible for the recent robberies.

Dothard says he has been stealing for the last ten years in Birmingham, Rome, Chattanooga and other places, but this is the first time that he has been arrested.

COURT OF INQUIRY WILL MEET TODAY

Sensational Affair To Be Investigated at Fort McPherson.

COURTMARTIAL MAY COME

Homeyn and O'Brien To Be Brought On the Stand.

WITNESSES HAVE BEEN SUMMONED

Assistant Judge Advocate General Will Arrive This Morning and Will Take Up the Affair for Investigation at Once.

The Romeyn-O'Brien affair at Fort McPherson will receive official investigation. A special court of inquiry will assemble tonight for the purpose of investigating charges in order to find whether court-martial proceedings will be necessary.

This morning at 5:30 o'clock Colonel Thomas Barr, assistant judge advocate general, will arrive, and upon his coming witnesses will be immediately summoned to testify in regard to the difficulty between the two officers.

It was thought for a long time that the fight would be overlooked by the war department and that it would be regarded simply as a personal encounter between officers to be settled in a personal manner.

It is said, however, that the initiative was taken by Lieutenant O'Brien, who preferred charges against Captain Romeyn, claiming that it was a serious breach of military law for an officer to attack another upon parade. Since the difficulty, while everything has apparently moved along smoothly at the post, there has been an undercurrent of strong feeling and some expected that the trouble would be revived in a personal way.

Official reports made by the commanding officer and it is probable that there will be a stern settlement of the affair than any one supposed.

The investigation, which will begin tonight and which will be secretly conducted, is in no sense a final court. It is merely

REMOVING DEAD FROM THE DEBRIS

Twenty-Two Bodies Recovered From Ruins at Chandler.

SOME ARE BADLY CHARRED

Many of the Injured Have Become Temporarily Insane.

RUSH MADLY THROUGH THE STREETS

Every Building on the Main Street of the Oklahoma Town Was Destroyed by the Cyclone—Five Burned Bodies Taken from One House.

Guthrie, Okla., March 31.—A dispatch received at 1 o'clock this morning from Chandler stated that twenty-two dead bodies had been taken from the ruins.

The wrecked buildings were on fire and burning fiercely. Many of the injured undoubtedly met death by fire, while fast under the debris. In one building five injured people were burned to death and at another place the incinerated bodies of three unknown children have been taken out.

Another dispatch received at 2 o'clock this morning asked for help and rescue parties immediately started from Guthrie and nearby towns. The message said that the entire business portion of the little town burned after being wrecked by the wind. The scene was described as terrible and almost beyond description. Several of the injured became temporarily insane and rushed up and down the streets in a state of delirium. The main street of the town is a mass of dead and injured people, and teams and wagons, buggies, trees and debris from the buildings. Every building but one on the main street was wrecked and burned, including the courthouse, postoffice, News and Democrat offices, Lincoln County bank, New York store and several hotels.

James Woodyard and wife, of Eldorado, Kas., visiting at Chandler, were instantly killed; their little daughter was fatally crushed and son badly hurt.

John Dawson, of Lincoln, Neb., a lawyer, was burned to death.

Latest from the Scene.

The other dead so far as they have been identified are:

APPOINTMENTS BY PRESIDENT

Three Men Made Happy by the Announcement.

Washington, March 31.—The president today sent to the senate the following nominations:

Jacob Trieber, of Arkansas, attorney of the United States for the eastern district of Arkansas.

H. M. Cooper, marshal of the United States for the eastern district of Arkansas.

Thomas W. Cridler, of West Virginia, to be third assistant secretary of state.

Mr. Cridler was born in Jefferson county, West Virginia, and entered the state department service as a nine-hundred-dollar clerk in 1878. He was promoted by Secretaries Blaine and Frelinghuysen until he reached the responsible position of chief of the diplomatic bureau, which he now holds.

The senate today confirmed the nominations of Joseph I. Bristow, of Kansas, to be fourth assistant postmaster general; Henry Clay Evans, of Tennessee, to be commissioner of pensions; Thomas Ryan, of Kansas, to be first assistant secretary of the interior; and Frank V. Palmer, of Illinois, to be public printer.

SCOTT ARRIVES IN NEW YORK

Arrested by Spaniards and Charged With Selling Cuban Stamps.

New York, March 31.—On board the Ward line steamer Orizaba, which arrived this morning from Mexico and Havana, was Carlos D. Scott, who was arrested by the authorities on the charge of circulating "Cuba Libre" postage stamps. Nothing was proved against him, and after being fourteen days in prison he was put on board the Orizaba and allowed to depart.

Scott's father was a New Yorker who established an iron foundry in Havana and married there. Scott is, therefore, an American citizen. He speaks little English.

BULLETIN ISSUED BY THE WEATHER SERVICE.

Washington, March 31.—The following reports have been received from weather bureau officials in charge of river districts:

MEMPHIS, TENN.—A severe break has occurred just south of Gunnison, Miss., making four on the Mississippi front. It is believed that the whole region from Australia south to Vicksburg will be inundated. Helena, Rosedale and Greenville are in great danger. Gunnison is flooded badly. The flow out of the St. Francis is increasing. No further rise is looked for at Memphis.

HELENA, ARK.—Rise over three inches in twenty-four hours. River is expected to rise several inches more in next few days. Levees holding for thirty miles below Helena. Can hold one foot or more in Helena. Destruction going on below. Will probably get worse.

CAIRO, ILL.—Silt water continues increasing. Has risen about one inch during past twenty-four hours. Many one-story houses in lower portion of city vacated; otherwise situation remains same as reported Tuesday afternoon.

ST. LOUIS, MO.—Rivers in St. Louis district will remain nearly stationary for a day or two; rain today will check the fall but will probably not cause another rise within that time.

VICKSBURG, MISS.—No anticipated reports of crevasses this morning. Crevasses already reported will be very disastrous in the delta. Heavy rain and thunder storm at this hour—10:30 a. m.

NEW ORLEANS.—No breaks reported this morning. Crevasse on Bayou La Fourche, near Faceland, of yesterday will cause only local damage.

Don to him was established a day or so ago by means of flash signals by way of the island of Anticthya. To-day Colonel Vassos sent to King George the following message by Heliograph:

"Alkan, March 31.—Sir: Contrary to my promises, the admirals allowed the Mussulmans at Kandamas to depart with their arms, their arms being pillage and inconsideration. On the other hand every act of the Christians in self-defense provokes bombardments.

"Mized detachments yesterday occupied and re-occupied Anarballi.

"The Turks have blockaded Port Kismatou Kastouli.

"The dispatch sent by the admirals to their governments accusing me of cruelty, declaring that I massacred prisoners at Malaxa and stating that I intend to attack Canea, despite my solemn declarations, are false.

"I want address an energetic protest to the admirals."

GREER WANTED IN BANKS.

Charged With Assault There and a Sheriff Identifies Him.

Charles Greer, a young white boy who was arrested on a telegram from the sheriff of Banks county, now turns out to be the one who made an assault on a young married woman down in Banks county some time ago.

The sheriff from Banks county came to Atlanta last night after the prisoner. He stated that there is no doubt as to Greer being one of the two who assaulted the young woman.

"It is a bad case," said the sheriff, "and if Greer does not get out of here he will get his neck into a rope before he is through with this thing. He made a brutal assault on a young married woman, who had been married about a year, and public indignation in Banks is so intense against him that there is great danger about taking him back. There have been rumors of taking him out of the first limb as soon as he is caught, but I am going to run him through and after I get him in jail I do not anticipate any further trouble."

Studying the Lease System.

Governor Atkinson and Judge Turner will probably return from their tour of inspection next week. They are now studying a number of the state convict camps.

The governor is studying the convict problem and is looking closely into the workings of the lease system.

Game on G. M. I. Campus.

An interesting game of baseball was played yesterday afternoon at Edgewood on the Georgia Military Institute's campus. The game was between the North Side Dixies and the Georgia Military Institute team. The Dixies won the game by a score of 10 to 9.

It ought to interest a great many people to know that when a ball is struck through the air first one way and then another after leaving the pitcher's hand, it does what scientific men once declared was impossible. They made figures and diagrams and proved that "curve" pitching couldn't be done, then the pitchers did it, and the scientists concluded that something was wrong with the diagrams. In fact of facts some scientific "certainties" became mighty uncertain.

Consumption, scientists once declared, was incurable; now they see it cured every day by Dr. Pierce's Golden Medical Discovery. It purifies and vitalizes the blood; drives out the poisonous elements; supplies the life-giving red corpuscles; stops the accumulation of morbid deposits; heals and builds up the lung tissues; puts good solid muscular flesh on to the frame; and imparts fresh nerve-force and vital energy. It is the most perfect cure ever discovered for throat and bronchial affections, wasted, run-down conditions; and all diseases due to impoverished blood.

It is the invention of an educated and experienced physician. Dr. Pierce has been for nearly thirty years chief consulting physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and his medicines are recognized standard remedies.

A GREAT FREE BOOK.

It would save doctor bills for any family to have a copy of Dr. Pierce's splendid thousand-page free book, "The People's Common Sense Medical Adviser," explaining the laws of life and health in clear and interesting language, with many valuable suggestions and receipts for curing common ailments by simple, safe treatment. It is over three hundred pages long, and contains a great deal of valuable information.

BRANTLEY TOO GAY FOR FOUR HOURS SPENT ON ARBITRATION

Although Married He Has Been Too Attentive to Girls.

WIFE WILL SUE FOR DIVORCE

She Says That She Has Been Putting Up Money to Get Him Out of Trouble.

A divorce suit will be filed with the clerk of the superior court within the course of the next few days by Mrs. R. A. Brantley, who lives in this city, against her husband, who is said to be under arrest in New Orleans. The suit is now being drawn by Mr. R. B. Blackburn, who is the attorney for Mrs. Brantley, and it is said that he will make some very interesting and sensational charges against the husband.

It will be stated in the petition that in 1883 Miss Juanita Stovall and Mr. R. A. Brantley were united in marriage in this city. The ceremony had not been performed more than two weeks when Brantley was arrested on a criminal charge. It will be further stated that from the

time of the marriage until the present day Mrs. Brantley has spent most of her time and money in trying to get her husband out of trouble, in which he would become involved on account of his bad character. It will also be alleged that Brantley has been untrue to his wife and has been traveling around the country representing himself as an unmarried man and women. On account of all these things, a total divorce will be asked for.

Mrs. Brantley is well known in Atlanta at present living with relatives at 220 Pine street. She says that her husband, as long as she could, and he will help him out of no more trouble. She says that she has been in the habit of paying him out of her pocket for a long time, but she will not do so any more.

She would probably not have entered suit for divorce had not some one in New Orleans, it is said, told her that she did not know whom she was getting a clipping from. The Times-Democrat, of that city, which stated that Brantley had been again arrested and was accused of trying to form a marriage alliance with a young lady in Greenvale, La. The clipping is as follows:

"R. A. Brantley was arrested yesterday at Greenvale hotel on the charge of being a fugitive from justice from Shreveport, La. His arrest was based on a telegram from Chief of Police Nelson, of Shreveport, to Superintendent Gaster, asking for his arrest. The telegram stated that Brantley was wanted in that town for obtaining money under false pretenses. His arrest was made by Detective C. C. Gaster, and when he was brought before Recorder Finnegan he was remanded to the parish prison to await the action of the Shreveport authorities.

"The prisoner declared that he had committed no crime in Shreveport and was perfectly willing to return if he thought that his life would be safe. But having been run out of the town by four men, he was not willing to return and would not receive some bodily harm if he returned.

"He said that he had been in the employ of the Dunning-Medline music store in Shreveport when he was made to leave. The trouble was caused by his attentions to a young lady whose family objected to the alliance, and a brother of the lady, with three companions, notified him to leave town or suffer the consequences. Last Thursday night, while he was asleep, a rap was heard on the door and when he opened it four men entered his room and informed him that he must leave town at once or they would kill him. He took the morning train and came to New Orleans.

Superintendent Gaster has resolved a dispatch notifying him that an officer has left for New Orleans to return the prisoner to Shreveport.

Officers Coming After Brantley.

Shreveport, La., March 27.—Chief of Police Nelson wired Chief Gaster, of New Orleans, to arrest Mr. R. A. Brantley, who slipped out of the city some days ago.

The charge against Brantley is that of obtaining money under false pretenses. The warrant for Brantley's arrest was sworn to by Mr. Medline, of the Dunning-Medline Music Company. Chief Gaster wired Chief Nelson that Brantley had been arrested in New Orleans and to send a deputy after him. Officer Blunt Irvine left this evening at 6 o'clock for New Orleans to bring back the prisoner, who will have to stand trial on the charge of obtaining money under false pretenses.

This was the last straw that broke the camel's back and Mrs. Brantley went at once to her attorney, Mr. Blackburn, and instructed him to draw up a petition for a divorce suit. Brantley's friends say that he will probably fight the suit, and they expect him to arrive in this city during the course of the next week.

Why Was It Not Frossed?

Postmaster Ames Fox states emphatically that the case against Charles R. Mobley for stealing money from the postoffice was not not pressed because of lack of evidence, as was stated in the newspapers. Dr. Fox says that there was abundant evidence. The postmaster says that the case was not pressed by order of the United States district attorney at Washington, and he is unable to conjecture why the case was dismissed in the face of such conclusive evidence.

Making Up Quarterly Reports.

The postoffice authorities are engaged in making up their quarterly reports. The report shows that \$23,000 worth of stamps have been sent to the Atlanta postoffice during the past three months. This amount does not represent all that were used, as many large corporations here receive many dollars worth of stamps every day in payment of small bills, and they use these stamps without buying from the postoffice.

CHILTON AMENDMENT LOST IN SENATE EXECUTIVE SESSION.

HOAR HAD A COMBINATION

His Amendment Embraced Main Features of Chilton's.

FORAKER FAVORS SEPARATE COURTS

His Amendment Was Adopted—Mugwumps Don't Like Hoar's Amendment—Senate Proceedings.

Washington, March 31.—(Special.)—The senate spent four hours in executive session, most of the debate being on proposed amendments to the arbitration treaty. There was some discussion on filling the senate committee, but nothing was done on that line.

The Chilton amendment to the treaty was defeated by a narrow margin. This amendment was a distinct innovation, that nothing should be taken to arbitration without first being approved by the senate. The reason of the defeat of this lay in the fact that a committee amendment already adopted covers practically the same ground.

The vote, begun promptly at 2 o'clock, according to the agreement, the first vote being on the amendment offered by Mr. Hoar, which consisted of the combination of the Chilton amendment and the amendment to the first article to the treaty submitted by the committee at the last session. This amendment provides that "any difference, which, in the judgment of either power, naturally affects its honor, or its domestic or foreign policy, shall not be referred to arbitration under this treaty, except by special agreement."

There is also added to this a provision stipulating that each question proposed to be submitted to arbitration under the treaty must first be sent to the senate for action by that body, as in the case of an original treaty. This was adopted by a vote of 54 to 13.

Despite the adoption of this provision stipulating that each question proposed to be submitted to arbitration under the treaty must first be sent to the senate for action by that body, as in the case of an original treaty. This was adopted by a vote of 54 to 13.

Mr. Morgan moved to strike out article 7, which relates to the methods to be pursued when objects of the arbitration are to be submitted to the tribunal, but he withdrew the motion, stating that he would renew it tomorrow.

Article 9 contains a provision which requires that the event of a refusal to arbitrate shall be no recourse to hostile measures of any description until the mediation of one or more friendly powers has been tried by one or both of the parties. Mr. Mills, of Texas, moved to strike out this provision, but this motion was also laid upon the table by a yeas and nays vote. Several other amendments of a minor character were offered but shared the same fate.

Mr. Davis pressed for an agreement for an hour to take the vote either Friday or the following Monday, but Mr. Stewart objected. Mr. Stewart contended that there had been no arrangement to take the vote to the pairs. This should be done, he said, on the basis of two votes for the treaty as against one on the other side of the question, inasmuch as the subject had to be determined by a two-thirds vote. No conclusion was reached on the subject and Mr. Stewart, refusing to withdraw his objection, no arrangement for the vote was had.

While the adoption of the Hoar arrangement has weakened the opposition to the treaty, it is not altogether certain it will have two-thirds of the senate when the final vote is taken.

The mugwumps are howling over this amendment, which they declare renders the treaty an absolute nullity and it certainly does eliminate most, if not all, of the objectionable features. There is, however, a certainty that the treaty will be ratified even as amended. A good many senators regard it a useless bit of buncombe and it may not get the requisite two-thirds. If it does not no harm will be done.

Inquiries About Cuba.

Mr. Mills offered the following: "Resolved, That the committee on foreign relations be instructed to inquire what, if any, obligations the United States have assumed toward the people of Cuba by asserting and maintaining the right to prevent the acquisition of that island by any European power and compelling its people to remain subject to the dominion of Spain, and to report by bill or otherwise."

Mr. Hale suggested the omission of the clause about reporting.

The resolution went over until tomorrow. The vice president laid before the senate the resolution offered yesterday by Mr. Morgan inquiring as to the letters alleged to have been written to the present and late chief executive by Maximo Gomez, leader of the Cuban revolution army.

Mr. Hale inquired whether Mr. Morgan had modified his resolution in accordance with the Mr. Morgan's amendment yesterday extending the inquiry to all letters.

Mr. Morgan said that he had not, because he did not know exactly what Mr. Hale meant.

Mr. Perkins re-introduced an old bill to amend the naturalization laws. It provides for the usual five year period and requires that each alien seeking to be naturalized must speak the English language, the provision that he must be able to read and write having been stricken out. The applicant must also show himself to be acquainted with the principles of the constitution and have an understanding of the system of the government of the United States and the states thereof.

Robbed of His Watch.

G. W. Watkins, a contractor from Jackson, Ga., was robbed down on Decatur street last night of a handsome gold watch and \$50 in money. Watkins soon found out the fact that he had been touched and took the officers to the place.

One of the parties suspected was arrested and the detectives say that they will recover the watch and money without any trouble.

VEAL ASKS DIVORCE PAINE WITH PISTOL SAYS HIS WIFE

He Charges His Cousin and Wife with Improper Conduct.

HE CALLS HER A DEBAUCHEE

Says She Is Intemperate and Has Deserted Him—He Wants the Custody of Their Child.

A sequel to the sensational charges recently made by O. P. Veal against his wife and cousin came yesterday in the shape of a divorce suit.

In his bill Veal declares that his wife has been unfaithful to her marriage vows and also has become a habitual drunkard and debauchee. The petition is sensational in the extreme.

Veal's story of his domestic life has been fully told recently by himself and other members of his family. He involves his kinsman and declares him to be the co-responsible.

The bill for divorce was filed by Mr. F. R. Walker, attorney for the husband. It states that O. P. Veal, the petitioner, and Ella Veal, the defendant, were married in the year 1890 and lived together as husband and wife until March of the present year.

It is charged that a few weeks ago Mrs. Veal left for Chattanooga, presumably to visit relatives, but she has never returned. Shortly after her departure from Atlanta Otis Veal, a cousin of the petitioner, who had boarded with him and his wife, also left for Chattanooga, and the husband says it was to visit Mrs. Veal. The petitioner learned of this, and upon his cousin's return to Atlanta accused him. When Mrs. Veal was accused of improper relations with Otis Veal, she was charged with being a drunkard and debauchee.

The petitioner further charges that his wife has been addicted to the use of alcoholic drinks, and is a confirmed drunkard and debauchee.

Veal asks for the custody of his five-year-old child, Harry.

It is understood that Mrs. Veal and her relatives will make a cross bill for divorce.

Washington, March 31.—(Special.)—President McKinley has arranged for a conference with Major Hanson before Saturday. The suggestion comes from the president, who wants to go over the Georgia situation with the leader of the new element.

The major is sharpening the knife he carries for the colored element, and is going to use it strongly as he knows how recognition for the lily whites. Just now he is particularly interested in Perry DeLeon, but there are others. The major's doctrine is no good places for the negroes, and he loses no opportunity to enunciate it.

adoption of this amendment if the republicans were sincere. Of course, it went out on a point of order.

Dockery again put the republicans on record in defense of trusts. They defeated his anti-trust amendment 19 to 148.

The bill now goes to the senate. While it is under consideration there Tom Reed will allow the House to do nothing but adjourn.

This is the republican policy. The democrats are ready to work, but they will be given no opportunity for two months—probably longer.

Bob Griffin Coming Back.

Captain Bob Griffin left today for Atlanta, where he goes to resume his role of private citizen. He is one of the few who resigned. He has given up the fat snap he wore under the treasury department and has tendered his resignation because he is tired of it, and now he goes back to private life. the preliminary hearing for the purpose of looking into charges. After all evidence is in the judge advocate general will make report as to whether the testimony will require court-martial proceedings. Should his report be in favor of a court-martial, immediate steps will be taken and an interesting trial will follow, subjecting the officer charged to serious discipline.

Those who will be called to testify before the court of inquiry are: Major Taylor, the surgeon; Major Carter, Captain Randall, Dr. Wyatt, assistant surgeon; Lieutenant Kimball, quartermaster; Lieutenants Ligertson, Shaw and Benford.

From these the cause of the trouble between Captain Boreman and Lieutenant O'Brien will be gained, the incident on parade when the major slapped the cheeks of the lieutenant will also be told. The affair will be investigated from beginning to end. With officers it is an unusual thing to hold a court of inquiry, but the offense has been judged serious and the court-martial may come.

Was Formerly Passenger Depot Master in Macon. Tax Assessors Completed Their Work—Gossip.

Macon, Ga., March 31.—(Special.)—A few days ago a telegram was sent from Macon, La., to the Central City keeper of records and statistics, stating that lodge, Knights of the Ku Klux Klan, would be visiting Macon, La., and it was to be paid the expense of travel and of the body shop telegram further stated that nothing could be heard from Mrs. Paine's nothing as to the disposition of her husband's body.

Information has been received in Macon, La., in letters directed from Monroe, La., to the effect that Pat Paine was not murdered, but that he had killed his wife and was now in jail at Monroe.

One of the letters was to solicit financial help for Paine to obtain counsel to defend him, etc. The following is an extract from the letter:

"A few days ago there occurred in Monroe, La., an accident in which Mr. Pat Paine put himself in a bad fix. In a moment of passion he killed his wife with a pistol, he himself being wounded by the bullet which struck her. He was taken to jail, where he is still awaiting his trial. He has no money. He requests me to write you this letter, hoping that you will do whatever you can for the unhappy man."

Paine was formerly union passenger depot master at Macon, and was a railroad telegrapher. Various places in the state he was station master at Macon when George DeLoe was superintendent of the Central railroad. He had an interesting family when he lived in Macon, and appeared very fond of his wife, who he has recently killed. In the late Georgia campaign he allied himself with the populists.

His many acquaintances throughout the state will be surprised to hear of his trouble in Monroe. It was not known in Macon that he was in Louisiana. It is presumed that Mrs. Paine was buried in Louisiana. Her home where she married was in Chicago.

About \$14,000,000.

The city tax assessors completed their work last evening by footing up all the totals of personal property and real estate, but they did not finish their labor quite in time to make their report to the mayor and council at the regular meeting of council last evening, nor will the assessors or city auditors give out the exact figures for publication until the meeting of council next Tuesday night. It is understood, however, that the total assessment for the present year falls short of the assessed value of last year, about \$400,000. According to this the total assessment is not quite \$14,000,000. Both the assessments of personal property and real estate are less than last year. The chief falling out is in real estate. This value has depreciated in Macon like it has everywhere. The assessors have been very conservative in assessing the value of real estate, and the average taxpayer seems contented with the assessment placed on his property. It is said that the decrease in personal property will not fall short more than \$10,000. The total assessment of personal property and real estate will be between \$13,500,000 and \$14,000,000.

Diocesan Convention.

The annual session of the state Diocesan convention of the Episcopal church will meet in Macon May 5th. The state council of the Brotherhood of St. Andrew will meet at the same time. The convention will last several days. Bishop Nelson, of Georgia, will preside over the diocesan convention. Mr. John W. Wood, of New York, general secretary of the Brotherhood of St. Andrew, will be present and make an address before the council.

RODE IN SMOKE INSTEAD OF SLEEPER

Sergeant Chinn Came to Atlanta in a
Second Class Coach.

HE WAS OFFERED A SLEEPER
Provided He Would Pay for the Whole
Eighteen Berths.

CHINN IS HERE TO BE RETIRED
He Will Go to Culpeper, Virginia, to
Live—Something of His Life
and Its Incidents.

Sergeant William Chinn, the negro army officer who wanted to ride up here from Savannah in a sleeping car, is in Atlanta. He arrived here yesterday morning on a Central railroad smoking car instead of the Pullman buffet to which he aspired. A full account of Chinn's trouble with the Central railroad authorities was contained in yesterday's Constitution. Chinn was seen by a Constitution reporter a few hours after he arrived yesterday and the army officer gave the reporter the following account of the disagreement between himself and the railroad authorities:

"I have been in charge of Fort Pulaski at Savannah for four years. A few days ago I received orders to go to Fort McPherson and report to the officers there, so that I could be retired on half pay, according to the army regulations. With the notice of my retirement I received an order drawn on the Central railroad for my transportation from Savannah here. I also received a warrant for sleeping car accommodations on the Pullman company's sleepers. When I presented these to Mr. Brewer he told me that the Pullman company ran no sleepers on his line and said that he would not let me ride in one of the Central railroad sleepers.

"I asked him if he refused to let me have a berth in a Central railroad car because of my color, or because the warrant was not drawn on the Central railroad. He replied that if the warrant was drawn on his road he could not let me ride because the laws of Georgia provided that separate coaches must be furnished for white and colored people. I demanded to know his reasons in writing, but he refused to give them.

"A friend of mine employed a lawyer for me and he tried to secure the accommodations which I wished, but was informed by the railroad people that I could not ride in a sleeper with the whites, and that they could not afford to run a sleeper for me. They offered to let me have a berth in a sleeper if I would charter the whole car and pay for the eighteen berths, but I didn't feel like paying out so much money for a sleeper.

"I took a smoking car last night and rode up here. I managed to sleep tolerably well nearly all the way, until this morning, when the porter woke me up rather rudely and told me I had been written up in the Constitution. I read the paper and saw that I was causing a sensation. Chinn went out to McPherson yesterday afternoon to be retired by the officer there. He stated that as soon as he was properly retired he would go to Culpeper, Va., and live the remainder of his days. Chinn is 47 years old. He was born and raised in Kentucky, and has had a rather eventful career. When the civil war broke out he joined the federal army and fought until the close of the strife. When the war was ended Chinn was drafted into the regular army, and he was sent to the West. He was stationed at Fort Apache, Arizona, for quite awhile, and was engaged in several serious battles with the Indians.

Chinn himself will not prosecute the case against the Central road for not allowing him to ride in a sleeper. He has turned the matter over to Quartermaster Kimball at Fort McPherson to do as he may please.

Just what action the quartermaster will take in the matter is not known.

MR. JACK GAMMAGE DEAD.

Expired Yesterday, After a Long Illness, in West End.

Mr. Jack T. Gammage, a young man well known in the city, died yesterday morning at the residence of his brother-in-law, Mr. E. P. Suttles, in West End. He had been ill for some time with pneumonia, and his death was not unexpected. He had reached the age of twenty years, and was well liked by all who knew him. The funeral services will be held at the residence of Mr. Suttles this afternoon at 2 o'clock. Rev. W. J. Norwood officiating, and the interment will be at Oakland cemetery.

FUNERAL OF MRS. STERLING

Her Remains Were Laid to Rest Yesterday Afternoon.

Mrs. W. T. Sterling, who died Tuesday night at the residence of her husband, 31 North Avenue, was laid to rest in Westview cemetery yesterday afternoon. The funeral services were conducted at the residence of Rev. Henry McDonald, of the Second Baptist church. The floral offerings were beautiful and completely covered the casket in which the remains of Mrs. Sterling had been laid. Mr. McDonald spoke for some time of the life and death of Mrs. Sterling, and when he had finished the eyes of many of those who were present were dimmed with tears. Mrs. Sterling was a very popular lady and her death caused regret in many homes.

DEATH OF MR. ELLIOTT.

Died Yesterday, After a Linger-
ing Illness, With Consumption.

Mr. Ira Elliott, a young man eighteen years of age, died yesterday morning at the residence of his parents, 165 Rhodes street. His death was caused by consumption, from which disease he had been suffering for a long time. His death was very sad, as he was a bright young man and had a large number of friends in the city. The funeral services will be held at the residence this afternoon at 3 o'clock and the interment will be at Oakland cemetery.

Funeral of Wilbur Smith.

The funeral of Wilbur Smith, the fourteen-year-old son of Mr. and Mrs. J. T. Smith, who died Monday night at the residence of his parents, 1300 Peachtree street, took place yesterday afternoon at 1:30 o'clock. He was a very popular boy and a large number of friends were present at the funeral. He was laid to rest at the cemetery near his father's home.

THE LOCAL THEATRES.

"Excelsior, Jr." Rice's big extravaganza, will be seen at matinee to-day and to-night at the Grand. The attraction is one of the best of the season and in the cast will be found many names that guarantee an excellent performance.

"Excelsior, Jr." ran two hundred nights in New York city, and the big production, with all its gorgeous scenery, properties and costumes, will be seen here at the Grand.

A good idea of the attraction can be gained from the following, which is a portion of the criticism of the Charleston News and Courier of Tuesday:

"The piece was decidedly interesting and amusing. In point of detail nothing more elaborate has been seen on the academy stage in years. Since the Irving-Terry engagement last winter there has not been such handsome scenery or such beautiful costumes. The prologue curdled. The Warning to Excelsior, Jr. was a very handsome drop and the three sets afterwards, the Swiss village, the scene in the monastery and Rocco's Saloon in the Grand Hotel, changing to the palace of the Snow King, were all exquisitely beautiful. The stage settings were perfect as to detail and the light effects lovely beyond description.

"The company is a large one and each member is competent and clever. Miss Sadie Martinot, Joe Cawthorne, Misses Nellie and Ethel Strickland, Miss Carrie Behr and Johnny Page were, of course, the ring-leaders in all the fun and noise."

On April 2nd and 3rd at the Grand opera house Mr. Joseph Jefferson will give three performances.

Mr. Jefferson is a capital hand at telling a good story. He tells the following amusing incident which happened a few weeks ago:

"I had been out duck shooting," said Mr. Jefferson, "and was being paddled slowly along the bayou in a canoe by my man Friday, a colored boy about eighteen years old. 'Mr. Jos, will you be mad if I ax you somethin,' said John, the colored lad referred to."

"'No, John; what is it?' said Mr. Jefferson."

"'What does you do in a show?'"

"'I told him it would be rather difficult for me to explain to him what my particular line of business was,' replied Mr. Jefferson. 'Well,' said John, 'does you swallow knives?'"

"'I told him I had no talent whatever in that way,' answered Mr. Jefferson. 'Well, your son told me that you swallowed knives and forks and fire, and de Lord knows what all, and I believe he was just foolin' me.'"

Mr. Jefferson agreed with him, saying he was quite capable of it. "Well, dere's one thing certain," said John, "you don't eat in the circus." Mr. Jefferson asked him how he could be sure of that. John burst into a moderate fit of laughter, almost tipping the canoe over in his violent mirth. "Oh, no, oh, no, sah; you can't fool me on dat. I've seen you get on your horse; you ain't no circus rider."

Despite the very inclement weather last night, a fair sized audience was on hand when the curtain went up at the Columbia theatre. The Nat Reiss Company presented "Home Spun Folks," a rural comedy drama in three acts. Tonight "Leah," a romantic drama, will be put on.

Numbers will be given at each performance for the \$25 which is to be given away Saturday night.

LOCAL SHOWERS TODAY.

Thunder Storms Are Predicted for the
Upper Part of Georgia Today.

The reports received by the weather bureau last night showed the controlling features of the weather to be an area of high pressure central over the eastern portion of the lake region, and an extensive area of low barometric pressure which occupied the entire Missouri, the lower Mississippi valley and the south-east.

The storm is of considerable magnitude and caused high and dangerous winds to prevail in the central Mississippi valley and lake region, and at the hour of observation last night the current wind at St. Louis, Mo., and Chicago, Ill., was blowing at the rate of thirty and forty-four miles per hour, respectively. It also caused general clouds and more or less rain to fall over the Missouri and Mississippi valley and south-east.

The conditions as they existed last night were, for Georgia today, local showers, with partly cloudy weather and probably severe local thunderstorms in northwest portion.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; if it contains sediment, it is an indication of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-root, the great kidney remedy, fulfils every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to urinate and scalding pain in passing it, and has effects following use of liquor, wine, beer, and overcomes that unpleasant necessity of being compelled to urinate many times during the night to urinate. The mild and the extraordinary effect of Swamp-root is so easily realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine, you should have the best. Sold by druggists, price fifty cents a bottle and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention The Atlanta Constitution and send your address to Dr. Kilmer & Co., Hinghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

FIVE LIVES LOST BY FIRE IN FLAT

Horrible Fate of People in New
York City.

THREE WOMEN; TWO BABIES

Flames Shoot Up Through the Building
Before They Could Escape.

SEARCH OF A HUSBAND FOR HIS WIFE

Believing That She Had Been Out
Shopping, Thought She Was Safe.

Search Revealed Her Remains.

New York, March 31.—Five persons lost their lives by the burning of the flat building at No. 31 West One Hundred and Fifth street this afternoon. The dead are:

MRS. DARLINGTON, two-months-old baby.

MRS. ELIZABETH FRENCH, twenty-eight years old.

FIDELE FRENCH, infant child.

ELLEN MORRISSET, forty-five years old, of Albany.

It was not known positively until tonight that Mrs. Darlington and her child were lost in the fire. It was supposed she had gone out during the day shopping.

When her husband returned at night he immediately began a search for her. He visited all of their friends and relatives, but could find no trace of her. The police then began a search of the ruins and they found the body of Mrs. Darlington in the cellar under the debris.

It is presumed that she sank with the caving floor. Half an hour later the body of the baby was also found.

It effects instant relief and cures Catarrh and colic of the head. 10 cent trial size of Dr. J. C. Cream Calm at druggists. Full size 50c.

Persons are forging ahead too fast these days. The big trusts and combines are making illegal things legal and if you are that kind of a person you can get there with both feet.

There are on the dive for the dollar and the teacher brings up the rear of the procession and he is after money too.

Salvation's free, but most of it is sold negro preacher said: "Broaden your life if free, but de pitcher of an' by golly I'm de pitcher."

The first thing I want to urge upon you is to be a man.

Its and things never get there, that isn't anything but a doctor, and anything but a doctor, and that's the same way with preachers.

But a dozen of you little fellows in it pocket, and I would never feel less you got to riding round on my back. Cultivate your head, but don't head-headed. I know some men so headed that they could beat against your goat for an hour and then send some with the headache.

Few Doctors in Heaven.

Get heart into your professional life. Don't shake hands with a dead flat's as to shake hands with a cold-blooded doctor. If heaven is a sickly place, I want to go there, for I'm powerful and there wouldn't be many doctors up there to look after me.

I occasionally meet a little M. D. who has studied science and has found out that there is no God. He says he's skeptical. When I see the little fellow, it's all I can do to keep from spitting on him and drowning him. He's not skeptical; he's just sacrilegious.

"Let indefatigable toil be your motto. Don't try to stand on your pedigree. Professor Webb, of Bell Buckle, Tenn., was talking to me not long ago on this very subject. He knows, too, for he has had to raise more sons of colonels and majors than anybody you know of. He raises 'em too and he raises 'em often. I see you are going to quit raising boys in your Atlanta school. I tell you, I wouldn't teach school unless I could lick the boys, for I despise a dull time, any way.

"I see some of you folks have got opera glasses," he interrupted. "I wish you would quit pointing those things at me until I get through."

Mr. Jones entertained the crowd thoroughly and concluded with some very complimentary remarks to the Southern Medical college.

The music for the occasion was furnished by Wurm's orchestra. A wagon load of fresh cut roses were showered on the graduates and each departed with a "rosy" one.

COURT WILL HAVE TO INTERPRET IT

Lively Tilt Between Cordele's Council
and School Board.

THEY HAVE CONTRARY VIEWS

Each Put Their Own Interpretation on
City Charter.

AS TO HOW MUCH TAX CAN BE LEVIED

Board of School Trustees Claim They
Have Not Been Allowed Money
They Are Entitled to.

Cordele, Ga., March 31.—(Special.)—There is a fight on to the finish here between the city council and the board of trustees of the public schools. Things have been rather inharmonious for some time between these bodies. The trouble arose from a contrary interpretation of the city charter and the bill authorizing the public school system.

The board met with the last council meeting and asked them to make good a small deficit which had been caused by an over-expenditure of funds. The teachers' salaries have not been paid since January, and the city refuses to pay them. The council also claims that the present board was illegally elected last year because insufficient notice was made of the election. The mayor issued the following order to each individual composing the board:

"Dear Sir—You are hereby ordered not to close any contracts or fix any expenses whatever in the city's name for the school year beginning September, 1897."

The trustees claim that they were legally elected and that the city council in 1896 notified them of their election. The board met yesterday and fixed salaries for all the teachers for another year. The trustees have been accused of extravagance by the council, whereas the trustees claim an economical administration.

The board has empowered its president, Hon. J. T. Hill, to employ competent counsel to defend their rights as they interpret them. Aside from this, the board claims, under the charter, a right to taxes to the amount of one-half of 1 per cent, whereas they have utilized only one-fourth of 1 per cent. The council comes back at them and says that they have a right to say how much shall be allowed for school purposes, and although the trustees had not used their full amount of one-half of 1 per cent, they, the council, will refuse to allow the limits on economical grounds.

The matter will end in the courts, as neither side shows any intention to give in.

GUILTY, BUT MAY ESCAPE

STATUTE OF LIMITATION MAY
SAVE A PICKPOCKET.

The Victim Allowed Exactly Two
Years to Elapse Before Beginning
the Prosecution.

Jonas Walker, a negro, was bound over to the city criminal court yesterday morning by Justice Landrum on the charge of larceny from the person. Walker has been at large for two years and on this account a nice point of law was raised.

On March 30, 1895, F. H. Twilley, of Macon, was in this city, and while here Jonas Walker was said to have picked his pocket of a gold watch. Efforts were made to catch the negro, but in vain, and he was never heard of again until a few days ago, when by some means Twilley learned that he was in the employ of the Woodward Lumber Company.

Mr. Twilley arrived here Tuesday morning, and immediately went before Justice Landrum, where a warrant was sworn out against the negro. The arrest was made just two years after the crime had been committed and on this point the defense rested its side of the case at the trial yesterday.

According to the law, when a misdemeanor has been committed, and larceny from the person is a misdemeanor, the warrant must be sworn out within two years after the offense has been committed. If the warrant is not sworn out in that time, the man is allowed to go free. In other words, after two years the warrant is barred by the statute of limitation.

The defense was based on this point yesterday, it being claimed that the warrant should have been sworn out before Twilley arrived in the city. There seems to be no doubt of the guilt of the negro. In fact, it is said that he admits having picked the pocket of Twilley, but he is in the hands of his lawyers and they will make a strong fight for him.

Justice Landrum ruled that the warrant was sworn out in time for the case to be pushed and accordingly bound the negro over.

Walker's bond was fixed at \$100, which he succeeded in making.

Georgia Properties Are Being Opened Up—One Hundred Men to Be Employed in Development.

Had to Work the Minister's Chef.

HAD QUEERED THEM

Had Repeatedly, But the Minister Would Not See Them.

PERSEVERED AND SUCCEEDED

Fagan Gave Them a Good Time in New Orleans, and They Promised to Show Him Chinatown.

Mr. W. R. Fagan, of the Southern Pacific railroad, returned to Atlanta yesterday, after spending a few days in New Orleans, where he entertained two Chinese millionaires of San Francisco.

The Chinamen passed through Atlanta last Sunday en route to San Francisco from Washington, where they had been to have a hearing before the Chinese minister. They are two of the richest Orientals in California, and they attracted a great amount of attention everywhere they stopped. They were dressed in gorgeous robes, and cared not for expense.

In going from Atlanta to New Orleans with them Mr. Fagan represented his road. They traveled in almost as much style as Li Hung Chang. In New Orleans they stopped at the St. Charles hotel, where they were treated with great respect. They drove through the city and caused quite a sensation. They appeared at the theater with Mr. Fagan, and the trio were the center of attraction in the opera house. The millionaires are two of the leaders of the See Yups, a well-known Chinese society of San Francisco, and they had been to Washington to ask the Chinese minister to intercede with the emperor for them, they having been condemned to death if they ever return to China.

It will be remembered that there has been a desperate feud between the Sam Yups and the See Yups ever since the Six Companies dissolved. They have fought each other bitterly, and many assassinations have been the result.

Some time ago the Chinese consul at San Francisco was called upon to settle a dispute between the two societies. He decided in favor of the Sam Yups, which is the stronger of the two. His report of the matter was sent to China, and as a result, the two leaders of the See Yups, who passed through Atlanta Sunday, were sentenced to death by the emperor of China. If they were to return, their heads would be cut off. As a consequence of this condemnation, the families of the two chieftains have suffered many indignities, and much trouble has been caused.

An interesting story in connection with the visit to Washington which has been told, and the facts in it came from the preventing the See Yups from obtaining an audience with the minister. It is soon as the consul heard of the matter for Washington, he betook himself to the residence of his royal Chinese minister. He scored very by being on the scene of the minister's no time in getting things in order. He was using two condemned millionaires to obtain an audience with the minister.

His plans worked like a charm. The millionaires took their time about visiting the minister, and not knowing of the presence of the consul, were not on the defensive. They sent in their cards, but no audience was given. They repeated the performance, but each time the cards were intercepted, and never reached the minister. Finally, they happened to get in conversation with one of the cooks at the residence of the minister, and discovered by a lucky chance that the minister spoke the same Chinese dialect that they themselves used.

They soon discovered that the consul had been at work, and it took them only a few minutes to arrange to get word of their preference to the minister. Through the preference to the minister. Without their money and all allowed them to return to their native land without being molested.

Next Saturday Mr. Fagan goes to San Francisco on railroad business, and the two men whom he befriended and entertained so royally have promised to meet him there and show him the sights as few have seen them. They intimated that they would burn money for his benefit.

Four capitalists and promoters who are largely interested in Georgia's gold fields spent a few hours in Atlanta yesterday. They were Colonel W. M. Duncan, Judge W. W. Murray, and Messrs. John P. Williams and Hugh T. Kirkpatrick, of Nashville. They were fresh from the gold fields around Dahlonega, where they had been to attend the meeting of the officers of the Appalachian Gold Mining Company, in which corporation they are the leading figures.

Judge Murray is the president of the mining company. Colonel Duncan is the first vice president, Mr. Williams is the second vice president, and Mr. Kirkpatrick is secretary and treasurer.

The Appalachian Gold Mining Company was recently organized under the laws of Tennessee. The maximum amount of the company's capitalization has not been fixed but it will be all of \$2,000,000, and perhaps more.

The property owned by the company is composed of about twenty of the best mines in north Georgia. The meeting which the officers held in Dahlonega this week was of great importance, in that definite action was taken in regard to pushing development work.

They decided to erect a chlorination plant for the treatment of the refractory ore. A contract was closed with C. E. James & Co., of Chattanooga, to build the chlorination plant and work will begin at once.

The contractors guarantee to save 95 per cent of all the gold in the ore, leaving a waste of not more than 5 per cent of the assay values.

By the old stamp method now in use around Dahlonega, no more than 15 per cent of the gold is saved.

President Murray was authorized to employ 100 men, and put them to work on the mines immediately. The work of the mining company will be confined almost entirely to the rich sulphurets which run high in gold.

Heretofore the sulphurets have not been mined in Lumpkin, except in so far as they were mixed with the free gold found above water level. The water level varies from 30 to 50 feet. Originally all this ore was mixed with sulphur, but the action of water caused the sulphur to pass off by chemical action in the ages which have elapsed since the gold was deposited.

The free gold is caught in riffles and on amalgam plates, but the quick silver will not catch the rebellious ore. In chlorinating the ore, after being milled, is roasted and then converted into a chlorine solution. This treatment saves practically all the gold which is in the concentrates. By this process ore which is now yielding 35 a ton will turn out 45.

The gentlemen here yesterday exhibited specimens of the gold taken from their mines, some of which were really fine. The company will make a large pyramidal display of the products of the mine at the Nashville exposition. Nearly all of the officers of the company reside in Nashville.

Mr. James will put in the Tesla process. He is president of the Royal company which is mining profitably at Tallapoosa. The Royal is down about 110 feet and is working on a large body of fine ore. M. A. Thompson superintended the erection of the Royal plant.

Carpets are sharing in the success that gives vital impulse to every part of the store. The progress of our Carpet interests is positively matched. Without a great deal of general advertising it has by sheer force of superiority maintained perfect leadership. No well-informed person in the community buys a Carpet before examining our grand collection of grains, Tapestries, Brussels, Moquettes, Velvets and Wiltons. Results. We're doing a tremendous Carpet business. Merit means mastery. . .

THIS RELATES TO FURNITURE.

Here is where unusual Furniture selling is proceeding these days. The department is not stimulated or bolstered with the rant of reckless hyperbole or conventional advertising cant. In a natural, smooth, even, unsensational way business is daily multiplying. Our policy compels recognition. It's a vigorous, active, honest policy, and wins wherever known. A just knowledge of the stock is essential to a right understanding of the artistic, practical and economical possibilities of home furnishing. Only reliable, dependable goods are allowed to enter, and great, unsurpassed cheapness constantly marks our regular and special offers. Wise buyers will not want to miss these:

Bedroom Suit of Antique Ash, full-sized double bedstead; high headboard; raised carving; three-drawer bureau, beveled-plate mirror, 22x28 inches in carved standard; washstand with three drawers and closet.

It was an occasion of great moment to the hundreds of men whose bread and meat hinged on the ballot of the board selected to preside over the destinies of the police department. Every breath that was breathed with a blue coat beat high with excitement and the long halls of the station house were packed to suffocation with the hungry men who were standing for the few loaves and fishes. It was a moment filled with climaxes of hope and despair. The anxious crowd jammed itself up against the windows and watched with breathless anxiety every movement of the commissioners as they moved about the long table in the commissioners' room and puffed away indifferently on their cigars.

WESTERN ROADS FORM A BUREAU

It Is to Make and Distribute Rates Among Lines.

NONE ARE BOUND TO MAINTAIN

Each Member Is to Be Free to Maintain or Not.

AGREEMENT HAS BEEN CAREFULLY DRAWN

The Lawyers Are Preparing It in Accordance With the Supreme Court Decision—Think It Is Right.

Chicago, March 31.—The Western Joint Traffic Bureau is to be the name of the freight association which is now called the Western Freight Association. The text of the new agreement which has been prepared by a committee of trunk line officers was submitted today to lawyers for the lines interested, who will examine the document with a view to determining its legality in the light of the Trans-Missouri decision of the supreme court.

The agreement is defined to be for the purpose of arranging, providing and distributing joint traffic and rates, and to make a satisfactory division of joint rates between the companies over whose lines the joint traffic moves, and in order to properly comply with all laws and state commissions for the purpose of providing tariff statistics and securing compliance with the decisions of the inter-state commerce commission and of the courts. The bureau is to be under the supervision of a board of five commissioners to be elected by the presidents of the roads, and the present board of administration will constitute the new board.

The members of the bureau will be required to furnish the board such reports of freight traffic and copies of joint or other rates as may be required by the board. The duty of the board is to distribute this information among the members of the bureau. All divisions of joint through rates, except those between proprietary lines, are to be fixed by the board. The board is empowered to call a meeting of the representatives of the lines as often as it deems advisable. The agreement is to be effective tomorrow and continue in force until December 31, 1938, when the contracts with the members of the present board expire.

The general sentiment of railroad officials, when interviewed today on the bill introduced by Senator Foraker permitting pooling among roads, was that such a measure was necessary to avert the ruin of roads, and they hoped it would pass quickly as a relief in the present emergency.

Back from Nashville.

The Atlanta passenger men who went to Nashville for Tuesday's meeting returned yesterday. Among those who came back with Commissioner Richardson were: Traffic Manager Glover and General Passenger Agent Anderson, of the Seaboard; District Passenger Agent Moore of District Passenger Agent Bush, of the Louisville and Nashville.

The conference fixed the same rates for the Nashville expedition that were given to Atlanta in 1938. Nashville's rates will apply for six months.

All Right Again.

NEW STATION IS NOW ASSURED

President Comer Says It Will Be Begun Within a Year.

TO BE FINISHED IN TWO YEARS

Central, Southern and West Point Are Sure To Go In.

MITCHELL STREET SITE IS SELECTED

There Is Not Room Enough on Wall Street to Properly Accommodate the Trains Which Are Now Entering It—A Talk With Officials.

Atlanta's new passenger station will be built at Mitchell street and not on the old site in the center of the city.

The roads have only come to this decision within the last few days. The decision of the roads to build on Mitchell street was announced to Chairman M. F. Camp of the bridge committee of the city council yesterday morning by President Comer, of the Central. He said that the Southern and the Central, after thoroughly considering the matter, had concluded that the Mitchell street site is better fitted for the accommodations necessary for these large systems than the old one.

The railroad presidents argue that the Wall street site is entirely too small for such a new station as Atlanta needs; that the Southern has already bought property on Mitchell street, and that it would be bad policy to dispose of it now for another location, and that the new depot on the old location would probably mean the lowering of the tracks, which would be too expensive, if practicable.

This, therefore, practically settles the matter.

Will Begin Work in a Year.

Mr. Comer furthermore told Mr. Camp that the roads were perfectly sincere in their promises for a new station, and that the structure will most positively be built, unless some unforeseen difficulty prevents. The Central's president says work will begin within a year, and that the depot will most assuredly be finished in two years. It looks, therefore, as if the roads were at last in dead earnest, and that Atlanta is to have a new station house.

Mr. Comer and Mr. Camp were together almost the entire day. They reviewed the whole situation, not neglecting a single detail, and also visited the site proposed for the new station.

Mr. Comer told me the roads had agreed to build on the Mitchell street site because they were simply forced to enlarge their accommodations, because of rapidly increasing business. This is particularly true of the Southern. You may state that the roads are in earnest this time, and that Atlanta is to have a new station.

"What about the Alabama street bridge?" "We won't need any Alabama street bridge if we build the viaduct and we could build the Alabama street bridge and the depot too; so I am inclined to think the bridge is rather a dead issue. If the depot is not built though, I am still in favor of the bridge, because those west side people need an outlet and they must have it."

Will Meet Saturday.

Mr. Camp will call a special meeting of the bridge committee next Saturday afternoon at 3 o'clock for the consideration of the viaduct. From present indications the body will report favorably on the matter to council.

There may be some difference of opinion among the trustees on the other of \$25,000 from the roads, some contending it is not liberal enough, but it is probable this disagreement will be settled and a favorable report made.

It all depends, however, on the cost of the viaduct. If it goes as high as \$135,000, as City Engineer Clayton says it will, there is some doubt of the roads' propensities to accept it. But if the total expenditure does not exceed \$75,000, favorable action will undoubtedly be taken.

Mr. Spencer and Mr. Comer do not believe the latter figure will miss the mark. Of course, their belief is based on estimates made by their engineers.

Not everyone can go South for March, but almost everybody can spend a dollar or two for Scott's Emulsion of Cod-liver Oil. If you have got a lingering cough or are run down; are weak and exhausted by reason of the Grippe, ask your doctor if Scott's Emulsion isn't just what you need in the emergency. The combined virtues of the Cod-liver Oil, the Hypophosphites and Glycerine as prepared in Scott's Emulsion will give you flesh and strength rapidly and help you back to health.

James Michael is the champion long distance bicyclist of the world.

He recommends all wheelmen to take Paine's celery compound.

His experience is that of thousands of others. With the opening of the bicycle season many a young person and hundreds of older people who have determined to take up bicycling as a health-giving exercise find themselves really lacking the proper "snap" or stamina to begin on. Their bodily condition presents so spirited exercise. They would like to ride, but they are out of sorts, run down by a winter of work or indoor life. Many who are really sick, who have suffered from debility or wasting diseases for a long time until they had begun to think their troubles had become chronic, as nothing gave them relief, would turn to bicycling for relief. But this splendid exercise, like any other, requires strength to undertake. The blood is out of order, the nerves are deranged, and nature's food for both is needed.

All such persons will find to their immense joy that Paine's celery compound, taken now, will make them well. Paine's celery compound works wonders in the spring. If you have labored under the load of repeated headaches, neuralgia, pains and dizziness, nervous debility, now is your best time to get well.

Michael is today the most phenomenal rider in professional ranks. As far back as 1894 he was undisputed champion of Great Britain, and in the following year he went to France and scored 23 straight wins against the picked riders of Europe. He has defeated such famous men as Jacquelin, Goussier, Hurst, Riviero, Bouchard, Bourillon and Barden of England, and Leyten, the Belgian champion.

He has just returned from Europe and is now ready to join the racing men on the Pacific coast, despite the large amount of work he has gone through during the past months.

Michael has made cycle racing a careful study and is in a position to give excellent advice, not only to racing men, but to wheelmen and athletes in general. In reference to his own methods the following letter will interest everybody:

BOSTON, Mass., Feb. 21, 1937.

After the exertion of my record rides while with the Morgan & Wright team to the south last winter, during which I lost somewhat in weight, on account of the unaccustomed climate, I was advised to use Paine's celery compound. I am pleased to say that it gave such satisfaction that I was impelled to use it again to brace up from the effects of the two unusually rough ocean trips that I have taken during the past month. I believe that wheelmen who have to undergo the hardships of "circuit chasing" will find that Paine's celery compound is assistance in keeping up their physical tone.

Every one needs to take a spring remedy to purify their blood, arouse the circulation and counteract the debilitating effect of months of leading work, worry and excitement.

The more brilliant portion of every community are those who best recommend Paine's celery compound. They have looked into this first-class, reliable, remarkable achievement of science and brain strength, and ideal invigorator for the body.

WIFE WASTWICE WED

John Green Says That She Has No
Ground for Kicking.

HE HAS MADE A DISCOVERY

When She Married Him She Had a
Husband Living from Whom She
Has Never Obtained Divorce.

Another sensational bill was filed yesterday in the litigation between John Henry Green and his dusky spouse.
Through his attorney, Mr. R. J. Jordan, the aggrieved husband, Green, has announced that at the time of his wedding his wife was married to another man.

BAPTISTS ARE HERE

Delegations Come in This Morning from
South Georgia.

WILL VISIT COX COLLEGE

This Afternoon They Go on a Special
Train to Gainesville, Where State
Convention Meets Tomorrow.

Two hundred Baptists will leave Atlanta at 3 p. m. today for Gainesville on a special train over the Southern. They go to attend their convention, which meets tomorrow.
Ex-Governor W. J. Northen said yesterday that all arrangements had been completed.

EX-GOVERNOR W. J. NORTHEN.
President of the Georgia Baptist State Convention.

from whom she had never been divorced and who still lives.
This was another interesting phase of the case.

John Henry Green first sprang into prominence Tuesday afternoon, when his wife filed a petition asking that she be divorced from her husband and that a receiver be placed in charge of his property. This property consists of a house and lot at No. 321 Smith street.

It was charged that at the time the Greens married, John deeded to his wife an undivided half interest in the home place, but continued to pocket all the rental.
The petition further alleged that her husband would get drunk and had a habit of undressing and going out upon the streets, much to the astonishment of neighbors. Finally the wife could stand it no longer and left.

In her bill, it is prayed that in order to prevent Green from disposing of the property, a receiver be appointed to care for it until further orders from court.
Now comes later developments and the most interesting features of the queer story.

Hearing of his wife's action, Green immediately employed Mr. T. J. Jordan as counsel and proceeded to block his wife in her suits for divorce and receiver. To this end a petition was presented to Judge J. H. Lumpkin, of the superior court, by John Henry Green against S. Lizlo Green, in which it is stated the couple were married in April, 1888. On October 3, 1896, petitioner deeded to his wife the half interest in the Smith street home.

It is then declared that Green has recently discovered that his supposed wife and one Thomas Chapman were married in 1887 or 1888, long before the petitioner's wedding ceremony was performed. It is charged that Chapman and the woman have never been divorced, but are still husband and wife. Chapman is alive and a resident of this county. Green swears that he never knew this fact until within the last two weeks.

The petition states that the consideration of the deed made to his wife was love and affection and \$25, which was never paid or expected.
Thomas Chapman, the first husband, is said to have married again and is now living with wife No. 2. It is charged that the defendant has threatened to dispose of her interest in the property and will do so unless restrained by the court. Therefore the petitioner asks:

That she be enjoined from encumbering or disposing of the property; that the deed she holds be brought into court and annulled; and that the marriage between the petitioner and defendant be set aside.
Judge Lumpkin read and considered the petition, and granted an order compelling Green's wife to appear in court on April 10th to show cause why the prayer should not be granted.

Unless you kill your doubts they will some day kill you. If you doubt the medicinal powers of Hood's Sarsaparilla, take half a dozen bottles, and then doubt and disease will be conquered.

College Park...

Atlanta's Most Cultured Suburbs

So rapid and substantial have been the improvements at College Park that the Atlanta and West Point Railroad has put on an extra giving twenty trains daily between that place and the Depot.

The price of lots has been reduced and people seeking desirable residence property can find none more inviting than that at College Park. Splendid schools and colleges furnish every advantage for the proper education of boys and young women.

Houses are constantly being erected and are always rented before completed. Not a vacant house at College Park!
